HE WANTS TO KNOW

Why the Electric Street Light Contract Should be Extended

FROM THREE TO TEN YEARS LONG.

C. E. Rebinson Says Electricity Will be 25 Per Cent Cheaper.

HOW THE TAXPAYERS CAN SAVE MONEY

It is pretty generally known to people inompany was given the contract in the early part of the winter for the lighting of a part of the city for three years.

Lately an ordinance has been introduced into Councils to "modify" that contract, so as to make the term ten instead of three years. The change might possibly have been made without attracting general attention had it not been that the Globe Lighting Company, of Philadelphia, which has run the gamut from gasoline to electricity, kept an eye out on all movements in this

Yesterday Mr. C. K. Robinson, of the company, called on Controller Morrow and announced that his company proposed to know whether or not "modifications" such as proposed were in order.

plainly, and said it was his business to make himself understood. Said he: "If this isn't a plan to get around offering

bits for the renewal of contracts, and the giving thereof to the lowest responsible bidder, then I don't understand what it is. and WHAT HE PROPOSES DOING.

"Now we propose, on all occasions where cities and towns want to let contracts for lighting, to be en hand and compete, and also propose to know if our bids are lowest and do not prevail, to know why we do not. ism. There are abundant reasons why the people of Pittsburg should back us.
"We are not running a charitable institu-

tion, but we want to get all the business we can, and Pittsburg suits us as well as any other locality in which to operate. Discoveries in the way of cheapening electric lighting are constantly going forward, and no one can tell what progress may be made in this direction during the next ten years. It is entirely safe to predict that, before that time clapses, electric lighting will be fully 25 per cent cheaper, or may be 50 per cent, or even more, and the taxpayers will doubtless be willing to get the advantage of this assured cheapness. tion, but we want to get all the business we

SAVED A LUMP FOR THE CITY. "Fourteen years ago we broke through the gas lighting monopoly in this city, and saved the city \$20,000 a year, and with profit

to ourselves."

The irruption Mr. Rebinson speaks of was the letting of the contract for lighting the streets of the Southside, which was let to Mr. Maloney at \$15 50 per iamp per year, instead of \$60 to \$80 a lamp, the prices previously prevailing on that side of the river. The company was then Mr. Maloney, and it has grown since to mammoth propor-tions, with stomach sufficient to attempt the lighting of the "Dark Continent" whenever it asks for it. It keeps its opties on all places where lighting of any kind is pro-posed, and always shies its beaver into the nng where there is any chance to bid.

While there has been no complaint on the part of the public regarding the service of the East End Electric Light Company, it seems that people generally will not object to cheaper illumination, and the tendency TOWARD CHEAPENING

in electric lighting is going on incessantly It is said the price of incandescent lamps will ere long be reduced from \$1 to 50 cents. The safety of large cities from the depredation of thieves and thugs depends largely god lighting. Vice hates the light.

12 is not known to many people that the gasoline lamp is still illuminating many square miles in this city, over 3,200 of them still burning in various parts where there mains or electric appliances. They are planted on crags which even a Rohery goat would exercise care in climb-

Prof. Guenther's Concert Nearly Falled to Materialize.

The committee which had charge of the concert at Old City Hall last night, to be given in honor of Prof. William Guenther, were in a bad dilemma yesterday afternoon, because a number of the musicians refused to take part in it.

These musicians are members of the Musical Union, and they had been notified if they played for Mr. Guenther they would be fined by the union for playing with non-

union men.

A local musician stated that the officers of Prof. Guenther, and they used their authority to prevent the concert from taking place. It was very fortunate, however, that the committee of amusements became aware of what had been done, and the price progress who refused to play were union musicians, who refused to play were rep. bed before the concert began. The gathering, which would have made a

good appearance in an ordinary hall, looked scattered in Old City Hall, although there were over 500 people present, exclusive of those who furnished the entertainment The programme was carried out as pub-lished, except that Harry B. Brockett, Jr., sang "Across the Dee," instead of the bal-iad, "Our World."

Prof. William Guenther was present ed during the evening with a medal, Mr. W I. Mustin making the presentation speech and Mr. Abe Israel replying for Prof.

bition was 25 mills. Property has depreciated 30 per cent.

The average tax rate in Kansas towns is over 40 mills. Taxes in Atlanta, Ga., increased 40 per cent during the first year of prohibition, and the city was forced to sell \$90,000 of gas stock to pay expenses. While these high tax rates prevail in prohibition States, in neighboring high license States, the rates are less than one-third as high. Kansas City. Missouri. for instance, pays Kansas City, Missouri, for instance, pays about 14 mills on the dollar. This indisputably proves that prohibition increases taxes. Under prohibition the towns, counties and State of Penusylvania would lose millions of revenue. This means an ir crease in general taxes to make up the de-

Seventeen hundred buildings were unoc cupied in the city of Des Moines, Iowa, in June, 1887. Store-houses are now offered for rent at one-half the rentals obtained for them before prohibition. Sixty-four large brick store-houses in the center of the city are unoccupied.

The loss to Iowa from prohibition is estimated at \$10,000,000 a year.

Rents in Atlanta, Ga., declined, under prohibition, 15 to 60 per cent. Two hundred stores and 900 residences stood empty.

Under license this has changed.

The cost of conducting the criminal courts in Iowa increased from \$384,000 in 1883 under license, to \$452,000 in 1886, under prohibition. This does not look much like the reduction in expenses, which the Prohibitionists say would follow the adoption of Only two States in the Union have ever
